

Brush Motor Belt Replacement Kit

T300, T300e, Speed Scrub 300 Cylindrical Brush Models

INSTALLATION INSTRUCTIONS:

Installation Time: .5 Hours

Special Tools Required: Belt Installation Tool

FOR SAFETY: Before servicing machine, stop on level surface, turn off machine, remove key and set parking brake if equipped.

1. Route the new belt around pulleys as shown.
2. To stretch new belt over pulley, position the belt installation tool inside the lower left pulley as shown.
3. Using a 3/8" socket wrench with an extension, turn the belt installation tool clockwise to guide belt over pulley.
4. Make sure the belt is fully aligned on all pulleys. If necessary, rotate the belt by hand to properly align belt on pulleys.
5. Reinstall belt cover and skirt cover.
