KIT NO. 9017501 Page 1 of 6

Circuit Board Replacement Kit

Model: T600

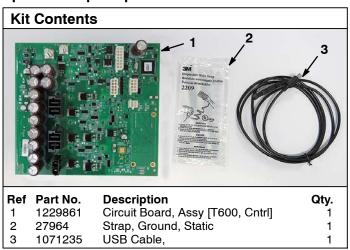

This kit includes the necessary part to replace a defective circuit board. Kit installation is required by Tennant*True*® service or an authorized Tennant service provider.

INSTALLATION INSTRUCTIONS:

Installation Time: 1 Hour Special Tools Required: None

ATTENTION: After installing the new circuit board, it's recommended to update the machine with latest FIRMWARE to ensure machine operates at peak performance.

- 1. Park the machine on a level surface and remove key.
- 2. Disconnect battery cable connector from battery pack.

FOR SAFETY: Before servicing machine, stop on level surface, turn off machine, remove key and disconnect battery cables.

3. Install new circuit board (Refer to the parts diagram page on page 6). When handling the new circuit board, use the supplied static ground strap as instructed to protect the circuit board from damage (Figure 1).

Fig. 1

- 4. Reconnect battery cable connector to battery pack.
- 5. Check machine to ensure latest firmware is installed.

FIRMWARE UPDATE INSTRUCTIONS:

The Tennant Service Application Software is required to update the machine's FIRMWARE. See **TENNANT SERVICE APPLICATION SOFTWARE** on page 2.

NOTE: If the Service Application Software is currently installed on your computer, confirm or re-install the software to ensure latest software version is installed.

 Start the Service Software Application program "Service Diagnostics..." (Figure 2). See Figure 8 for further information.

Shortcut Icon on Desktop

Fig. 2

2. After start up, the following screen will appear (Figure 3).

Fig. 3

Connect the USB cable, supplied with kit, to the computer and into the USB port on machine. Turn the key switch to the on position (Figure 4).

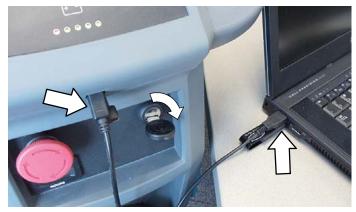

Fig. 4

KIT NO. 9017501 Page 2 of 6

4. The application software will then connect to the machine (Figure 5). If the application remains on the "Connecting to Machine..." screen for an extended period, recycle key or close and restart the application software. If it still fails to connect, restart the computer.

Fig. 5

5. If firmware updates are required, the "Firmware" button on the home screen will be highlighted in yellow as shown (Figure 6). Press the Firmware button to update the machine's firmware.

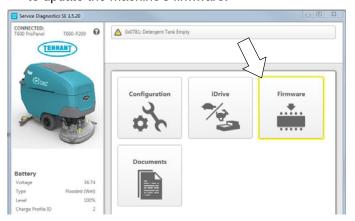

Fig. 6

Continue with the firmware update by pressing the yellow "Update" button as shown (Figure 7). It may take a few minutes to update.

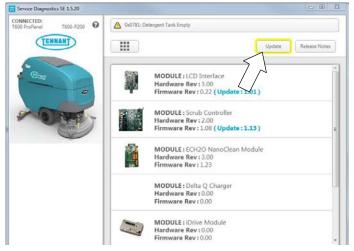

Fig. 7

After the firmware updates are installed, cycle the key to apply the new firmware. Disconnect the USB cable.

TENNANT SERVICE APPLICATION SOFTWARE:

The Tennant service application software can be accessed or downloaded as described below.

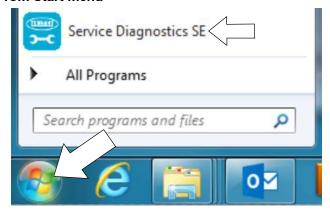

<u>TennantTrue</u>® <u>Service personnel with</u> ServiceLink computers:

The software is pre-installed on your computer as shown below. The software application is titled "Service Diagnostics" (Figure 8). ServiceLink computers have latest software version.
