INCREASE PRODUCTIVITY AND PROFITABILITY

For maximum efficiency, you need quick, thorough floor cleaning that can be integrated with production processes. Our machines offer you flexibility, durability and easy maintenance, helping to reduce ownership costs. They also help you to meet Health and Safety requirements. At Tennant, we make it our business to know your business. You will see the difference in a cleaner, safer, healthier manufacturing environment.

M20

INTEGRATED SCRUBBER-SWEEPER

Benefit from two machines in one with this fully integrated ride-on scrubber-sweeper. Available with ec-H2OTM or FaST® foam-activated scrubbing technology, it sweeps and scrubs in one pass for better productivity.

S30

MID-SIZED RIDE-ON SWEEPER

This mid-sized ride-on sweeper picks up everything from cement dust to heavy debris. Suitable for indoor and outdoor use, it includes 3-stage SweepMax® Plus dust control. The cab forward design improves visibility and reduces fatigue, while its low (80dBa) noise level make it suitable for a wide range of environments.

T16

BATTERY-POWERED RIDE-ON SCRUBBER-DRYER

This battery-powered ride-on scrubber-dryer was designed to reduce ownership costs by as much as 20% compared to traditional machines. Innovative scrubbing technologies greatly improve cleaning efficiency and reduce water usage. Quiet operation means you can clean anytime, anywhere.

PREVENTATIVE MAINTENANCE PROGRAM

We are committed in helping you maximize the potential of your investment in Tennant Equipment. We want to ensure your cleaning equipment is running at optimal performance with minimal downtime. With a Preventive Maintenance Program you are able to control maintenance costs, increase equipment life and achieve long-lasting machine performance.

WHY IS IT IMPORTANT?

- Prolonged life of Tennant equipment
- Reduce unplanned downtime caused by equipment failure
- Reduce unnecessary maintenance and inspections
- Improved reliability of equipment
- Reduce expensive repairs caused by unexpected equipment failure that must be fixed quickly

WHAT DO YOU GET?

- Budgeting predictability and better control of maintenance expenses with monthly billing
- Better cleaning performance and lower total cost with Tennant genuine parts
- Access to your machine's full service history

HOW DOES IT BENEFIT YOU?

- Keep your machines at optimal performance
- Minimal Downtime
- Control Maintenance Costs
- Lower Costs of Ownership
- Increase Equipment Life
- Long-lasting machine performance
- Discounted price on machine parts
- Operator's training

Ideally, a preventive maintenance schedule will prevent all equipment failure before it occurs. It will save time, reduce costs, and keep an operation running efficiently and productively.
