Exclusive scrubbing technologies

Tennant technologies help you enhance safety and productivity while reducing water and chemical use.

ec-H2O NanoClean®

ec-H2O NanoClean technology is the next generation of detergent-free cleaning that cleans effectively on a wider range of soils, saves money, and reduces environmental impact compared to daily floor cleaning chemicals.

ec-H2O™

ec-H2O™ scrubbing technology improves productivity by scrubbing up to 3 times longer with a single tank. It uses less in chemicals and packaging, and up to 70% less water than conventional methods, reducing the environmental impact of daily cleaning and maintenance activities. It also improves safety for both passers-by and operators.

Orbio® Split Stream

This technology generates a solution on site that replaces many conventional and packaged cleaning solutions for daily use. It makes cleaning processes faster with reduced training needs, improved health and safety, reduced environmental impact and significant cost savings.

ES® Extended Scrubbing

This unique technology recycles cleaning solution to extend scrubbing uptime. As well as enhancing productivity, it uses up to 66% less in chemicals than conventional cleaning methods.

More than clean, it's ReadySpace®.

ReadySpace®

ReadySpace® rapid-drying carpet cleaning technology provides clean, fresh carpets in minutes to reduce room and carpet area closure times. It uses up to 80% less water to clean and leaves 90% less water in the carpet.

Retail

Cleaning in shops, supermarkets and department stores demands flexibility and efficiency. Our scrubbers and sweepers deliver outstanding results on hard floors, carpets and outdoor areas. Easy to maneuver, they clean quickly and thoroughly, even in tight spaces or hard-to-reach areas. Low noise levels ensure that business can continue as usual, while unique technologies help you reduce water and chemical use. Reduce the risk of slip-and-fall accidents with high-performance genuine Tennant squeegees and powerful vacuum systems that leave virtually dry surfaces, even on tile floors.

Convenience Stores

Get noticed for all the right reasons

Big Box Stores

Manage large volumes of merchandise—and customers

Warehouse and Distribution

Improve your efficiency behind the scenes

Grocery Stores

Clear the way for more store traffic and sales

Department Stores

Create inviting spaces that draw customers in

Specialty Stores

Turn your store from a stop to a destination

Dealerships

Make every customer visit a special event

T500

WALK-BEHIND SCRUBBER

Quietly clean hard and decorative floors in retail, and other heavy traffic spaces.

- Increase battery life, extend battery run-time, and easily optimize long-term battery performance with optional Smart-Fill™ automatic battery watering system
- Deliver predictable results with programmable Zone Settings™

B7

BATTERY-POWERED WALK-BEHIND BURNISHER

Tennant's B7 is an innovative battery powered burnisher delivering high performance burnishing results in an ultra quiet, ergonomic and easy to use platform. Consistently reducing the cost to clean, enhancing the facility's image while providing environmental health and safety benefits.

Healthcare

Healthcare facilities need safe, efficient and thorough cleaning. Our walk-behind scrubbers, carpet extractors and vacuum cleaners are ideal for cleaning around furniture and in hard-to-reach areas. Working quietly, they leave floors dry, safe and ready for use without disturbing patients and staff. Exclusive Tennant technologies help you achieve excellent results while reducing the use of chemicals and detergents.

Education

School and university floors can get very dirty very fast. We offer durable, reliable machines that withstand almost constant use while reducing water and detergent use. Our scrubbers clean quickly and thoroughly, leaving floors dry for reduced risk of slip-and-fall accidents. A range of scrubbing paths allows you to adapt to any space, while low noise levels mean you can clean without interrupting classes.

B7

BATTERY-POWERED WALK-BEHIND BURNISHER

Tennant's B7 is an innovative battery powered burnisher delivering high performance burnishing results in an ultra quiet, ergonomic and easy to use platform. Consistently reducing the cost to clean, enhancing the facility's image while providing environmental health and safety benefits. Active filtration with HEPA standard – maintains indoor air quality.

T350

STAND-ON SCRUBBER

High productivity rates and great maneuverability make this stand-on scrubber an ideal choice for large or obstructed spaces.

- Clean faster and longer with category-leading productivity rates
- Ensure consistent cleaning results with programmable Zone Settings™

Aviation and Public Transit

Efficiency is everything when cleaning public transport buildings. Hallways and facilities need to be available for non-stop traffic. Tennant machines are compact and easy to maneuver, cleaning around obstacles without impeding passengers. Excellent water pick-up minimizes the risk of slip-and-fall accidents. A range of cleaning paths and accessories make it easy to match every floor size and surface.

T20

INDUSTRIAL RIDER SCRUBBER

Deliver significant cleaning power with an exceptional scrubbing and water recovery system. Optional ec-H2O™ technology can greatly improve cleaning efficiency and reduce water use. The MaxPro²™ hydraulic technology and Dura-Track™ Parabolic Squeegee make aggressive scrubbing easy, while simple operation and maneuverability enhance efficiency.

SENTINEL®

HIGH PERFORMANCE RIDER SWEEPER

Tennant's Sentinel High Performance Rider Sweeper maneuvers easily to clean large, harsh environments with all-weather dry dust control.

- All-weather dry dust control in a high performance ride-on sweeper.
- Safe and comfortable cab with full visibility as the cab forward design gives operators a clear view of the sweeping area.
- Simple operator control and easy maneuverability of the sweeper due to four-wheel steering.

Office Buildings

Tennant machines are ideal for cleaning a wide variety of floor surfaces and room sizes in office buildings. They work quickly and efficiently, leaving floors dry and ready for use whenever they're needed. With easy control and maneuverability, they clean around furniture and reach easily into awkward areas. Low noise levels and superior dust filtering technology help to create pleasant, healthy environments for employees and visitors.

R3

INTERIM EXTRACTOR

Using Tennant ReadySpace® technology, this interim carpet extractor cleans and dries carpets in less than 30 minutes. A compact size with forward and reverse operation makes it convenient in tight spaces. Its low 69 dBA noise level means it can be used in quiet environments.

V-LWU-13

LIGHT-WEIGHT UPRIGHT VACUUM

Cleans in tight areas and in hallways, meeting rooms, and lobbies.

- Automatic pile height adjustment adapts to a variety of floor surfaces.
- Clean without disruption in noise-sensitive environments.
- Certified CRI Gold rating.

Hospitality

The hospitality industry demands fast, effective cleaning that leaves floors dry, safe and available for use at all times. We provide a range of scrubbers and extractors for efficient cleaning of both hard floors and carpets. Their low noise level allows cleaning anytime without disturbing guests. Compact and maneuverable, they easily fit in elevators, clean around furniture and reach into every corner.

Manufacturing and Industrial

Safety and productivity are top priorities at manufacturing sites. Tennant machines deliver quick, efficient cleaning. Our scrubbers are easy to maneuver, yet tough and powerful enough to handle all kinds of debris and dirt. Excellent water pick-up reduces the risk of slip-and-fall accidents. Meanwhile, our quiet, easy-to-use carpet extractors and vacuum cleaners help ensure that office floors are always spotless, dry and ready for use.

M20 INTEGRATED RIDER SWEEPER-SCRUBBER

Improve productivity by delivering exceptional sweeping and scrubbing performance with FloorSmart® integrated cleaning system technology. Available with ec-H2O™ technology for reduced water and detergent use.

T17 BATTERY-POWERED RIDER SCRUBBER

An innovative high-performance, heavy-duty battery, rider scrubber for toughest cleaning needs.

- Clean for 7-8 hours in economy mode, on a single charge, with the largest available battery capacity in its class.
- Reduce slips and falls with water recovery system that leaves floors virtually dry.
- Engineered for easy operation and maintenance.

Warehousing and Logistics

Trucks, packaging materials and pallet splinters can generate a lot of dust, debris and grime.

Tennant cleaning machines deliver powerful sweeping and scrubbing for logistics sites with a wide range of brushes and scrubbing paths for maximum flexibility. Innovative technologies provide optimal dust control and remove all sizes of debris. Meanwhile, safety is enhanced by all-round visibility, overhead guards, ergonomic controls and fast, effective water pick-up.

M20

INTEGRATED RIDER SWEEPER-SCRUBBER

Benefit from improved productivity with this integrated ride-on sweeper-scrubber. Available with ec-H2O™ technology for reduced water and detergent use.

S20

COMPACT MID-SIZE RIDER SWEEPER

This compact ride-on sweeper combines mid-sized power with the maneuverability of a ride-on machine. It's suitable for indoor and outdoor use and includes the SweepMax® dust control system for better air quality.

The service you need wherever you are

No matter how you use your equipment, we have you covered. Highly skilled and factory trained Tennant service technicians are available to handle all your maintenance needs.

Tailored service agreements

Our team can help you decide which service agreement is best for your needs. Whether your top priority is maximum uptime, quick response or preventive maintenance, we have a package to suit you.

Predictable cost of ownership

Our comprehensive service offering is designed to protect your investment and reduce your total cost of ownership. In addition, costs are predictable for easier budgeting.

Tennant parts and consumables

Expect top quality from our machines, parts and consumables. They are precisely designed to enhance results and improve your cleaning productivity. All Tennant parts and consumables are widely available, easy to order and delivered quickly.

Professional customer support

Our customer support team is available during business hours on weekdays and weekends to help you to order parts or schedule a service visit.

The solution you need whatever your budget

Advanced cleaning performance with a range of purchase and rental options for every budget.

Short and long-term rental

If you have a temporary need for a scrubber-dryer, sweeping machine or outdoor sweeper, we can provide you with a short or long-term rental agreement. A fleet of machines is available with sizes ranging from smaller commercial machines to larger scrubber-dryers and outdoor sweepers.

Used machines

As well as a comprehensive range of new machines, Tennant has one of the largest pre-owned inventories in the industry. You can be confident in your purchase. Our used machines are rigorously inspected, tested and "Tennant Certified" by factory-trained technicians.

Financing

If you're not ready to invest fully in new equipment, we make it more affordable by offering flexible, convenient financing options together with established leasing partners.

Choose the right machine to meet every customer's needs.
