CLEAN UP YOUR PROCESSES

For maximum efficiency, you need quick, thorough floor cleaning that can be integrated with production processes. Our machines offer you flexibility, durability, and easy maintenance, helping to reduce ownership costs. They also help you to meet health and safety requirements. At Tennant, we make it our business to know your business. You will see the difference in a cleaner, safer, healthier manufacturing environment.

EXCLUSIVE TENNANT TECHNOLOGIES

Trust Tennant for innovations that make cleaning easier, reduce chemical use and cost, and give you critical data about your machine use.

PRO-PANEL™ LCD TOUCHSCREEN TECHNOLOGY

Available as an option on select Tennant equipment, the LCD Pro-Panel delivers the next generation of floor cleaning technology. This one-of-a-kind control panel makes cleaning and operator training efficient and easy, with Programmable Zone Settings™, Severe Environment™ Switch, Quiet-Mode™ Operation, and operator controls. The Performance View back-up camera allows operators to check the cleaning path without interrupting their work.

IRIS® IRIS ASSET MANAGER

Manage and monitor your machines and drive cleaning performance with IRIS® Asset Manager. IRIS gives you complete visibility into your fleet, delivering key performance metrics and intelligent insights that empower you to increase productivity, reduce cost to clean, ensure cleaning consistency, and make informed decisions to drive your cleaning operations forward.

ec-H2O® An ORBIO® technology

Onboard Tennant scrubbers, ec-H2O™ technology electrically converts water into an innovative cleaning solution that cleans effectively, saves money, improves safety, and reduces environmental impact compared to daily floor cleaning chemicals and methods.

TENNANT PRODUCTS FOR YOUR TOUGHEST ENVIRONMENTS

From office spaces to assembly plants and production areas to loading docks and parking lots, Tennant has equipment to clean floors, control dust and debris, and reduce the risk of slip and fall accidents. Our range of solutions includes a variety of machines, including:
